### Summary

The University Sidi Mohamed Ben Abdallah, Polydisciplinary Faculty of Taza (FPT), and the Laboratory of Engineering Sciences (LSI) at FP Taza, Morocco will organize in October 19-20, 2017 the International Conference on Applied Mathematics (ICAM'2017). This Conference aims to provide a meeting place for researchers, professionals and practitioners to exchange ideas and recent developments in both theoretical and applied mathematics. Also, this meeting will enable new doctoral researchers to exchange their ideas with scientific specialists in their corresponding fields of study and seeks to discover new techniques of mathematics as a tool in various disciplines. On the other side, participants are encouraged to establish collaborations and join their efforts in order to advance the theory and practice in their own fields of study. This conference is broad-based that covers all branches of engineering sciences, mathematics and interdisciplinary researches.

The proceeding book will comprise the abstracts research papers on the author's contributions to the Conference. It will cover the following topics:

- Partial Differential Equations
- Non linear Analysis
- Control Theory
- Dynamical Systems
- Numerical Analysis and Scientific Computing
- Cryptography
- Computer vision
