

**Special Issue on Innovative Research in Applied Science,
Engineering and Technology 2020**

Guest Editor's Foreword

Special Issue on Innovative Research in Applied Science, Engineering and Technology was dedicated to researchers and engineers to publish the latest research, developments, advances and new technologies that can significantly contribute to the growth of scientific and technical researches and the emergence of new techniques and inventions. It was a high-quality research material to pursue research works and share innovative ideas for the benefit of the scientific community. The objective of this issue was to identify topics that are a noteworthy impact in the fields of engineering and emerging technologies.

This special edition was dedicated to the extended versions of the best papers of the conference IRASET'2020, but it also received new research works. It includes 33 articles that cover several disciplines related to the fields of Control, Automation, Mechatronics, Electronics, Electric, Embedded Systems, Telecommunication, Computer Science, Information Technologies, Artificial Intelligence and Emerging Technologies.

Thus, we would like to thank all the authors for their interest to this Special Issue, the Scientific Committee Members, who carried out the most difficult work by carefully evaluating the submitted papers. Finally, we would also like to express our gratitude to the Editorial Committee of the 'Advances in Science, Technology and Engineering Systems Journal' (ASTESJ).

Guest Editor-in-Chief

- Prof. Bachir BENHALA, University of Moulay Ismail, Meknes, Morocco

Guest Editors

- Prof. Amin SALLEM, University of SFAX, Tunisia
- Prof. Pedro PEREIRA, University NOVA of Lisbon, Portugal
- Prof. Khalifa MANSOURI, Hassan II University, Morocco
- Prof. Noureddine EL MAKHFI, Abdelmalek Essaadi University, Morocco
- Prof. Mohammed QBADOU, Hassan II University, Morocco
- Prof. Abdelhadi RAIHANI, Hassan II University, Morocco
